BEST BOSSSES 2021

TIMOTHY J. WALLEN

For more than two decades, Timothy J. Wallen has served as principal and CEO of MLG Capital, during which he has grown the firm and has driven the acquisition of 26.1 million square feet of commercial properties across 19 states with a value exceeding \$2.8 billion. However, most impressively, perhaps, is Wallen's reputation among employees. He is known for embodying the firm's principals of "absolute integrity" and "making a difference while making a living," and for his commitment to career development and maintaining the MLG corporate culture, which has helped to foster talent and growth. This includes employees at every level that are learning to navigate the job. "Tim's commitment to building up others permeates all levels of the organization. Tim's incredible intellect and shrewd investing skills are easy to understand by reviewing the firm's track record," says Billy Fox, a VP at MLG Capital, who started as an analyst and benefitted from Wallen's guidance. Other employees noted Wallen's character, great judgment and willingness to embrace new ideas as aspects that make him a quality boss.
